Education

Parul Institute OF Engineering And Technology **June 2019 – June 2022**
Diploma in Computer Engineering *8.26 CGPA*

Drs. Kiran & Pallavi Patel Global University **June 2022 – June 2025**
B.Tech in Computer Engineering *8.56 CGPA*

Work Experience

SoftSages Technology (Internship) **June 2024 – September 2024**
DevOps Implementation with Docker and AWS *On-Site*

- Automated **CI/CD pipelines** using **AWS CodeDeploy** and **ECS**, reducing deployment time by **35%** while maintaining **99.9% uptime**.
- Optimized **Dockerfiles** and container workflows, cutting build failures by **30%** and improving delivery speed.
- Deployed and managed **15+ applications** on **AWS (EC2, ECS, RDS, VPC)** with Kubernetes, enhancing scalability and disaster recovery.
- Configured **APIs, networking, and routing**, reducing response times by **15%** and minimizing downtime.

WovV Technologies (Internship – Java Backend) **Feb 2025 – May 2025**
Java, Spring Boot, REST APIs *On-Site*

- Contributing to a backend application that standardizes and transforms sales data from multiple formats into a unified structure.
- Analyzing existing codebase to understand data transformation logic and optimize performance.
- Enhancing data processing efficiency using **Java, Spring Boot, and REST APIs.**
- Collaborating with senior developers to debug, test, and improve the application's functionality.

Projects

Smart Expense Tracker **July 2022 – July 2023**

- **Tools:** HTML, CSS, JavaScript, React.js, Node.js, MySQL, AWS.
- Developed a React-based web application for expense tracking and analytics, enabling seamless categorization and visualization of spending patterns for **1000+ users**.
- Integrated OCR technology with a Flask API to automate receipt data extraction, reducing manual input time by **50%**.
- Implemented CI/CD pipelines using Jenkins and Docker, ensuring automated testing, deployment, and achieving **40% faster release cycles**.
- Deployed and monitored the application on AWS with Kubernetes and the ELK stack, maintaining **99.9% uptime** and real-time log analysis.

Inventory Management System **July 2023 – July 2024**

- **Tools:** Java, Swing (GUI), MySQL.
- Enhanced stock tracking efficiency by **50%** using Java Swing for front-end and SQL for back-end development.
- Streamlined order processing, reducing time by **35%** with optimized CRUD operations and real-time updates.
- Reduced inventory carrying costs by **20%** through timely notifications, preventing stock-outs.
- Strengthened security by integrating robust authentication, reducing unauthorized access attempts by **30%**.

MathBot – Math Calculator Learning Tool **Jan 2023 – Jun 2023**

- **Tools:** Python, Tkinter, Google API, Text/Voice Input.
- Built a **GUI-based learning tool** supporting arithmetic, percentages, profit/loss, shapes, and interest calculations, enhancing student accessibility and usability.
- Integrated **voice-command functionality** with Google API for hands-free interaction, reducing input time by **40%** and improving accessibility.
- Implemented **modular code structure** with error handling, responsive Tkinter UI, and GitHub version control, ensuring maintainability, scalability, and reproducibility.
- Implemented Python-based **scripting automation** by creating **data logging scripts** to record user calculations in CSV/Excel, **unit test automation** to validate mathematical operations, and a **voice-to-text preprocessing script** to clean and translate inputs, improving accuracy and reducing manual effort.

Technical Skills

Languages: Java, Python, JavaScript, C/C++
Backend: Spring Boot, Node.js, Express.js, MySQL
Frontend: HTML, CSS, JavaScript, React.js
Cloud Platforms: Amazon Web Services (EC2, ECS, RDS, CodeDeploy), Cloud Computing Concepts
Developer Tools: VS Code, Android Studio, Git/GitHub, Docker
AI Technologies: ChatGPT, Claude

Certifications & Achievements

1. Claude in Action — Feb 2026
2. Networking Basics — Jun 2024
3. Ultimate AWS Certified Cloud Practitioner CLF-C02 — Oct 2023
4. G20 Student Ambassador — Sep 2023
